DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 2, line 5, the term, "equally" has been changed to - -equally- - to correct the misspelled word.

Allowable Subject Matter

2. Claims 1-12 are allowed.

3. The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches a toner supplementing device having a toner storing segment placed outside an image forming device where the toner is transferred from the toner storing segment to a toner supplement segment of a developer device comprising a cylindrical member closely contacted with the other end of a conduit and rotatable around its axis and having a desired number of small slit like toner supplementing ports which have their center being place on an inclined line in respect to an axial direction in a developed plane of a circumferential wall and are punched with their phase being displaced in a circumferential direction and in parallel with the axial direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Corrigan discloses a structure for a developer dispensing assembly for dispensing developer having a profile of dispensing apertures arranged in a geometric pattern.
